SUMMARY

I am a Front-End Developer specializing in React JS, currently studying Information Technology Engineering at the Syrian Virtual University. I have strong skills in HTML, CSS, JavaScript, and modern React libraries and tools. I excel in time management and thrive in collaborative team environments. Passionate about creating user-friendly, responsive, and visually appealing web applications, I am equipped to tackle complex problems and deliver high-quality solutions efficiently.

PROJECTS

E-commerce, *Responsive React Js App with APIs about E-commerce*

- Authentication system (Json Server auth)
- Wishlist for every user
- The cart allows you to manage products in a basket
- Place orders and display orders for every user
- The backend is the JSON Server
- Live Preview: <https://e-comtype.vercel.app>
- Link Repository: <https://github.com/Hakam-aldeen-Kh/eCommerce>

Exam Gate, *Responsive Web Application Offers an Automated Exam*

- Offer many subjects for many years
- Display results and wrong, correct answers for every question
- The results and answers coming from the backend
- Automated corrected
- Live Preview: <http://examgate.hostek.xyz>
