SUMMARY

I am a dedicated Front-End Developer with a focus on the React JS framework, currently pursuing a degree in Information Technology Engineering at the Syrian Virtual University. I have a strong foundation in front-end development, including proficiency in HTML, CSS, JavaScript, and modern libraries and tools associated with React. In addition to my technical skills, I excel in time management and thrive in collaborative team environments. I am passionate about creating user-friendly, responsive, and visually appealing web applications. My experience in both academic and practical settings has equipped me with the ability to tackle complex problems and deliver high-quality solutions efficiently.

PROJECTS

e-Commerce, *Responsive React Js App with APIs about e-Commerce*

- Authentication system (Json Server auth)
- Wishlist for every user
- The cart allows you to manage products in a basket
- Place orders and display orders for every user
